

(6) *Approval of laboratories.* Administrators shall develop detailed laboratory approval requirements and conduct periodic inspections to assure each test laboratory's capability. Laboratory approval may be granted for 2 years. Reapproval of the laboratory shall be necessary every 2 years. When a program allows the use of an administrator's own laboratories, these laboratories shall be reviewed by a qualified third party acceptable to HUD. Documentation of acceptance for administrator laboratories shall be maintained by the administrator and HUD. Administrator laboratories shall be subject to reapproval every two years.

(7) *Withdrawal of approval.* Laboratory approval shall be withdrawn or temporarily suspended if it is determined that the laboratory is not complying with the approved requirements. Causes for suspension include, but are not limited to, the following:

- (i) Incompetence.
- (ii) Failure to test in accordance with the test methods described in the standard.
- (iii) Issuance of test reports which fail to comply with the requirements described in the specific product certification program.
- (iv) Falsification of the information reported.
- (v) A statement implying validation of the product using a test report which constitutes only part of the total standard.
- (vi) Deceptively utilizing references in advertising or other promotional activities.
- (vii) Submission of incomplete or inadequate information and documentation called for herein.

[44 FR 54656, Sept. 20, 1979, as amended at 63 FR 5423, Feb. 2, 1998; 72 FR 73494, Dec. 27, 2007]

§ 200.936 Supplementary specific procedural requirements under HUD building products certification program for solid fuel type room heaters and fireplace stoves.

(a) *Applicable standards.* Solid fuel type room heaters and fireplace stoves certified under the HUD Building Products Certification Program shall be designed, assembled and tested in con-

formance with the following standards, which are incorporated by reference:

(1) ANSI/UL 737 (1978), for fireplace stoves;

(2) ANSI/UL 1482 (1979), for solid fuel type room heaters with coal amendments.

(b) *Labelling.* (1) Under the procedures set forth in paragraph (d)(6) of § 200.935, concerning labelling of a product, the administrator's validation mark and the manufacturer's certification of compliance with the applicable standards are required to be on the certification label issued by the administrator to the manufacturer. In the case of solid fuel type room heaters and fireplace stoves, the following additional information must be included on the certification label:

- (i) The manufacturer's statement of conformance to the HUD Building Products Certification Program;
- (ii) The manufacturer's name and the identity and location of manufacturing plant;
- (iii) The specification designation and manufacturer series or model number; and
- (iv) The type of fuel to be used.

(2) The certification label must be permanently affixed to the heater or stove and be readily visible after the heater or stove is installed.

(c) *Periodic tests and quality control inspections.* Under the procedures set forth in paragraph (d)(8) of § 200.935, concerning periodic tests and quality control inspections, the frequency of testing for a product must be described in the specific building product certification program. In the case of solid fuel type room heaters and fireplace stoves, testing and inspection shall be conducted as follows:

(1) Once every four years, beginning with the initial administrator visit, a sample of each certified product shall be selected by the administrator for testing for compliance with the applicable standards in a laboratory which has been accredited under the National Voluntary Laboratory Accreditation Program.

(2) The administrator shall visit the manufacturer's facility two times a

§ 200.937

year to assure that the initially accepted quality control procedures are being followed.

[48 FR 1955, Jan. 17, 1983]

§ 200.937 Supplementary specific procedural requirements under HUD building product standards and certification program for plastic bathtub units, plastic shower receptors and stalls, plastic lavatories, plastic water closet bowls and tanks.

(a) *Applicable standards.* (1) Plastic bathtub units, plastic shower receptors and stalls, plastic lavatories, and plastic water closet bowls and tanks shall be designed, assembled and tested in compliance with the following standards, which are incorporated by reference:

ANSI Z124.1—(1980) Plastic Bathtub Units
ANSI Z124.2—(1980) Plastic Shower Receptors and Stalls
ANSI Z124.3—(1980) Plastic Lavatories
ANSI Z124.4—(1983) Plastic Water Closet Bowls and Tanks

(2) These standards have been approved by the Director of the Federal Register for incorporation by reference. They are available from the American National Standards Institute, Inc., 11 West 42nd Street, New York, NY 10036. The standards are also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202-741-6030, or go to: http://www.archives.gov/federal_register/code_of_federal_regulations/ibr_locations.html.

(b) *Labeling.* (1) Under the procedures set forth in paragraph (d)(6) of § 200.935, concerning labeling of a product, the administrator's validation mark and the manufacturer's certification of compliance with the applicable standards are required to be on the certification label issued by the administrator to the manufacturer. In the case of plastic bathtub units, plastic shower receptors and stalls, plastic lavatories, and plastic water closet bowls and tanks, the following additional information shall be included on the certification label:

(i) Manufacturer's statement of conformance to UM 73a;

24 CFR Ch. II (4-1-08 Edition)

(ii) Manufacturer's name and code identifying the plant location.

(2) The certification label shall be affixed to each plastic bathroom fixture.

(c) *Periodic tests and quality control inspections.* Under the procedures set forth in paragraph (d)(8) of § 200.935, concerning periodic tests and quality control inspections, the frequency of testing for a product shall be described in the specific building product certification program. In the case of plastic bathroom fixtures, testing and inspection shall be conducted as follows:

(1) At least every six months, the administrator shall visit the manufacturer's facility to select a sample of each certified plastic bathtub unit, plastic shower receptor and stall, plastic water closet bowl and tank for testing in an approved laboratory, in accordance with applicable standards.

(2) At least every twelve months, the administrator shall visit the manufacturer's facility to select a sample of each certified plastic lavatory for testing in accordance with applicable standards.

(3) The administrator shall also review quality control procedures at each visit to determine that they continue to be followed.

[49 FR 378, Jan. 4, 1984, as amended at 59 FR 36695, July 19, 1994]

§ 200.940 Supplementary specific requirements under the HUD building product standards and certification program for sealed insulating glass units.

(a) *Applicable standards.* (1) All sealed insulating glass units shall be designed, manufactured, and tested in compliance with the American Society for Testing and Materials standard: ASTM E-774-92 Standard Specification for Sealed Insulating Glass Units.

(2) This standard has been approved by the Director of the Federal Register for incorporation by reference. The standard is available from the American Society for Testing and Materials, 1916 Race Street, Philadelphia, PA 19103. This standard is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of this material at NARA, call 202-741-6030, or go to: <http://www.archives.gov/>
